

Autumn

Photography Workshop

November 12th 2016 - THE THRESHING BARN

A day packed full of expert tuition, tips and tricks to enable you to capture your photographic vision. **10.00am until 4.00pm - £80.00**

Come and experience a day's photography training with RPS Gold Medal photographer, Richard Crompton. Richard's award winning images have included fashion, portraits, landscapes, flowers, still-life, reportage and abstract.

The day is aimed at developing skills and confidence with your camera. Expand your knowledge by photographing your subject in different ways and understand the thought process behind shooting great images.

You'll get the most from the day if your camera has some form of manual control such as that found on all SLR cameras and most compact cameras.

The course will cover how your camera sees the world and how that affects your images. The effect your choice of aperture, shutter speed and lens length has on your photograph. How to compose an image, with some simple rules to get you started. Lots of fun practical sessions to help you grasp the concepts with tips and tricks professionals use to create a stunning image, no matter what.

- ▶ **Composition**
- ▶ **Spotting a shot**
- ▶ **Getting the most from your camera**
- ▶ **Maximising your image's potential**
- ▶ **Creating style and vision**
- ▶ **Seeing the light**

The day is set-up for you to learn how to get the most from whatever photography kit you have. You don't need bags packed with gear, what matters is your enthusiasm to make a great picture with the equipment you have. Although not essential, a tripod can help you when composing your images and also allow you to get the best quality from your images by reducing camera shake. A lens that focusses close-up also adds to the range of shots you be able to acheive on the day.

We will be running through how to photograph all sorts of subjects both in the studio and outside in the garden, so please dress for the weather on the day.

Light refreshments are included for our mid morning and afternoon breaks. Please bring your own pack lunch.

Autumn

£80.00

A great photo packed day.

Photography Workshop

Nov 12th - THE THRESHING BARN

Richard trained as a photographer in the 80's at Plymouth College of Art and Design. After time spent in London assisting fashion, advertising and car photographers, Richard returned to Devon to teach photography where his creative streak was hijacked by the world of graphic design a few years later. He has been glued to his AppleMac ever since...

Richard has picked up a hoard of photographic awards including Practical Photography, Photographer of the Year and a coveted Royal Photographic Society Gold Medal.

Richard Crompton Photography, The Threshing Barn,
Stretton Court, Stretton Grandison, Herefordshire, HR8 2TW.
01531 670340 www.richardcromptonphotography.com

Travel to and from the workshop is not included. Price includes light refreshments.
Clothing suitable for an outdoors, any weather, environment are recommended.
Photographic equipment is not provided. You will be responsible for your own health and safety.
We do not recommend putting yourself and others in danger for a photograph!

Spaces are limited to ensure everyone gets plenty of personal tuition on the day, so to avoid disappointment, **please book early.**

I'd love to join the Autumn Photography Workshop at The Threshing Barn, Stretton Court, Stretton Grandison, Herefordshire HR8 2TW
